

## RESPONSIBLE VISITOR CHARTER

We want to be 'green' and we would love it if you helped us while you are here.

### **Conserve Energy**

Turn lights off when not needed.

Adjust your radiator so it suits your needs but doesn't waste heat.

### **Give the Car a Rest**

Leave the car at home, or if you have come in your vehicle, perhaps leave it parked for some of your stay. We are happy to suggest walks straight from the door.

### **Support the Locals**

Use the local Co-op - ask staff for directions.

Attend local events.

### **Reduce, Reuse, Recycle**

Bring your own towel and take it into the washroom to save paper ones.

Recycle using the appropriate bins in the kitchen.

### **Be Water Wise**

Turn taps off when you aren't using the water – especially while brushing your teeth.

### **Respect Nature**

Avoid dropping litter and maybe even pick some up if it's safe and hygienic to do so.

Add your observations to the wildlife board.

### **Support Green Initiatives**

Support Nurture Lakeland when you book or when you are enjoying your 'free' cuppa in the kitchen.

**Thank You**
